

Product Sales Guide

**Film Thickness
And
Layer Metrology**

www.foothill-instruments.com (818) 952-5600
La Canada, CA 91011

Foothill Instruments offers complete metrology solutions that include film thickness and layer metrology for various film types and complex structures.

**Wafer Sorting
And
ID Reading**

www.nadatech.com (512) 443-6232
3805 Woodbury, Austin, TX 78704

With over 35 years of experience, Nada Technologies Inc. is committed to being a key wafer sorter provider for the global semiconductor wafer automation market. State of the art wafer sorters for virtually all wafer sizes and "Sorter Plus" platforms round out the product line.

**Metrology
And
Inspection**

www.hologenix.com (714) 903-5999
5932 Bolsa Ave., Huntington Beach, CA 92649

Hologenix understands the Semiconductor Industry and its quality driven demands. Their focus is to provide the industry with advanced metrology and inspection equipment for diverse applications. Contact us with your requirements.

**Microscope
Wafer Loaders**

www.franklinstages.com (408) 842-0313
8901-B Murray Ave., Gilroy, CA 95020

A leader in highly reliable microscope stages, stands and accessories, Franklin also supplies competitively priced wafer loaders for all microscope types and wafer sizes.

**Digital Image
Management**

www.paxit.com (847) 455-0450

PaxCam digital cameras with Pax-it! Software from MIS is an easy to use, Windows based digital imaging system for science and industry. As a true 32-bit application, Pax-it! Gives you the power and control you need with a familiar interface, at the right price.

(More Products on Reverse Side)

CO2 & Steam Cleaning

www.vatran.com (619) 423-4555
677 Anita Street, Suite A, Chula Vista, CA 91911

Va-Tran Systems manufactures precision cleaning solutions for the semiconductor, fiber optic, medical, optics and other high technology industries. Carbon Dioxide (CO₂) cleaners, purifiers, booster systems & reservoirs are just a few of the products. Let us determine which system best fits your requirements.

Substrate Thickness

www.sigma9600.com (480) 649-6180
5869 South Kyrene, Suite 1, Tempe, AZ 85283

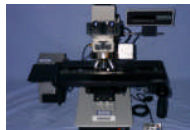

SigmaTech non-contact thickness measurement systems use proprietary APBP probe technology. We provide thickness, bow, warp, and flatness measurement of any type of material.

Microscope Inspection

Former products include the Cassette Loading “Ultrastation” for practically all microscopes. Irvine Optical has been closed down for many years, but TCG, the local sales rep for over ten years, still carries service parts and pre-owned systems available for all size wafer-handling applications.

Pre-Owned Equipment

Our long-term commitments to the fields we serve allow us the ability to offer used equipment as well as new products. We have access to inspection and metrology solutions from various manufactures and also offer custom solutions. Please do not hesitate to discuss any of your requirements with us. We probably can help.
